CROSSHEAD MODEL D

HIGH PRECISION DATA CABLES INSULATION

*FOR DATA CABLES LAN & MINI COAX
SKIN-FOAM-SKIN / SKIN-FOAM / FOAM-SKIN
EXTREME INSULATION CONCENTRICITY
E-XHEAD R® SYSTEM FOR RAPID HEAD CHANGE
EASY MAINTENANCE*

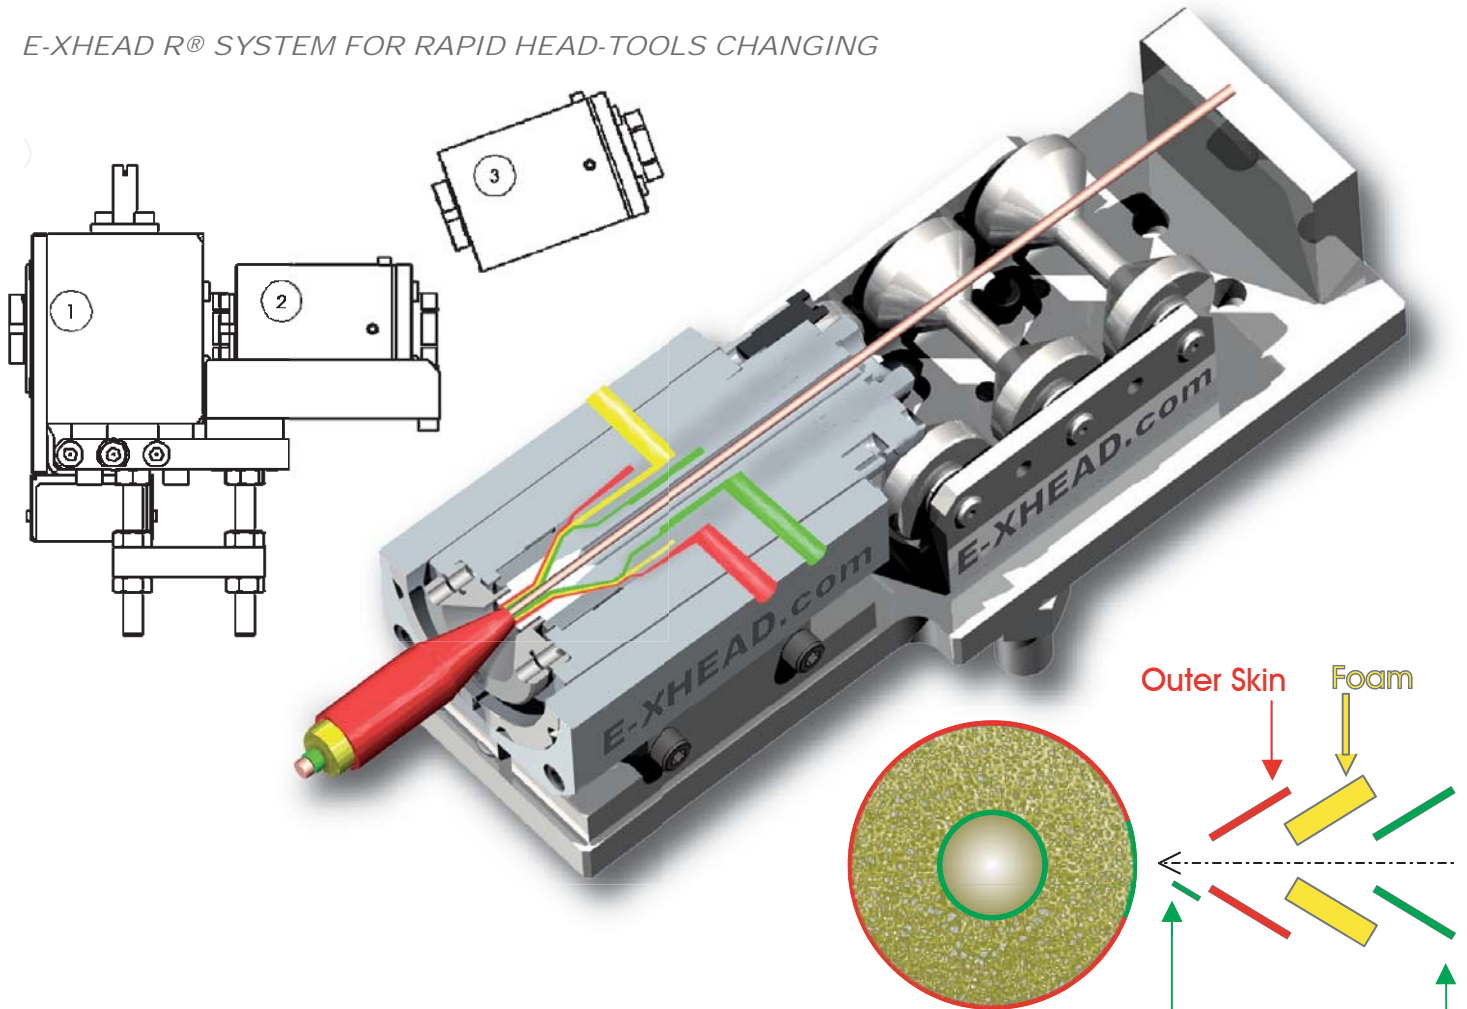

E-XHEAD PRECISION EXTRUSION CROSSHEADS FOR ALL EXTRUDERS

E-XHEAD® Model D Crosshead is designed for Very High Insulation Performance for Data Cables, Multi-Layer extrusion of Chemical or Physical Foam required for LAN Cables & Mini Coax. This new generation of crosshead can achieve extreme insulation concentricity. Its design allows tools change within a minute, in keeping all times perfect alignment to the production line. Concentricity is obtained from first cable metre of production.

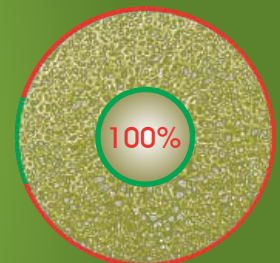

GUARANTEED CONCENTRICITY > 97%
VALUE NORMALLY OBTAINED BETWEEN 98% TO 99,9%

E-XHEAD R® SYSTEM FOR RAPID HEAD-TOOLS CHANGING

Type of product :	Lan & Mini Coax
Materials :	MDPE - HDPE Physical & Chemical Foam FEP (Special Crosshead)
Configuration:	FOAM-SKIN SKIN-FOAM SKIN-FOAM-SKIN SKIN-FOAM-SKIN + STRIPES SOLID + STRIPES

Micro Centre System allows perfect centring of insulation, when some concentricity correction is required. →
